PHOTOGRAPH	Color: Roll/ 1	No./ 29 30 31 32	B&W: Roll/ 1	No./ 24-27
DRAWN	Area Plan: 1:20	Feature Plan:	Sections: Two sections w. Fill	

REMARKS; INTERPRETATION: ① Perhaps associated w/ nearby SL cable line.
 ② Lit. disintegrated granite - 1cm dia. chips to very small grains - also pelerite and/or basalt
 Does ⑤ indicate hole originally gypsum filled (or packing for post?), then cleared and refilled w/ ②-③. Finally paved over w/ ②? (OVER)

Insect Remains - some kind of Bee? Dried bodies fuzzy - stripped. Also "bags" - larvae?

Limestone bottom of FHS reddened - rust colored. Scorched?
