This context is			<b>28684</b>						
			<b>2861</b>	<b>28712</b>					

Your interpretation:

	Internal	External	Structural	Other (specify)
--	----------	----------	------------	-----------------

Your discussion:

*part of a limestone surface that appears to be on an east west orientation covering the alignment of the causeway. It is better preserved to the south with a sharp southern edge. Presumably the surface abutted the southern wall of the causeway. With the wall erosion away leaving preparation layer on the southern edge of an earlier limestone surface was cut away to form the basis of the causeway.*

Placement in square
