

GIZA PLATEAU MAPPING PROJECT

Grid Square(s) T/27 101.526, Tab	Area KKT	Context Type Deposit	Central Coords	Context 29597																																	
S27 DEPOSIT			CUT																																		
1. Compaction	1. Ranges cement to loose			1. Shape in plan																																	
2. Colour	2. dark greyish black			2. Corners																																	
3. Composition/Particle Size (Over 10%)	3. solidified melted mud, compact			3. Dimension/Depth																																	
4. Inclusions (Under 10%) occa / mod / freq	4. limestone chips occasional pottery bits occasional			4. Break of slope/top																																	
5. Thickness and extent	5. Ext: E-W: NS: Thickness 1m - 1.6m			5. Sides																																	
6. Top and bottom boundaries	6. Top: Bottom			6. Break of slope-base																																	
7. Other comments	7. see disc			7. Base																																	
8. Method and conditions	8. mapped 1:20, cleaned w/ brushing offset measuring might be cleared			8. Orientation																																	
				9. Inclination of axis																																	
				10. Truncated (if known)																																	
				11. Fill/#s																																	
				12. Other comments																																	
				Draw profile overleaf																																	
Type of feature: Modern compact & melted mud																																					
Stratigraphic Matrix
