		Your interpretation:		Internal External Structural Other (specify)		
		Slim Hollow Exc. trench				
		Your discussion:				
		<p>This trench bottom was discovered while removing modern fill debris from the SE portion of 101.T26. It truncates a limestone wall on the NE end, and abuts a mudbrick wall to the south. One pick-axe mark is cut into the floor of the trench and a similar shaped cut gouges the edge of wall 29627. Water evaporation cracks suggest this cut was not backfilled in a timely manner, if at all.</p>
