Your interpretation:	<input checked="" type="radio"/> Internal <input type="radio"/> External <input type="radio"/> Structural <input type="radio"/> Other (specify)																																					
Your discussion:																																						
<p>pass Floor for SE silo (33438), slightly slopping towards southern side which possibly make the grain easier to get from the slopping floor. First it was half sectioned and half excavated then, it was fully excavated</p>																																						
Volume of feature: Western Half = 36 Litre Eastern Half = 36 Litre				Final Volume = 72 Litre
