Type of feature:				
Stratigraphic Matrix				
<p style="text-align: center;">This context is 29634</p>				
Your interpretation: mudbrick Tumble		Internal External Structural Other (specify)		
Your discussion: Possible mudbrick continuation of wall/structure 29627. This appears to be a silt deposit with two obvious mudbrick stains, one of which lines up as a continuation of wall 29627, the other is an odd angle on the western edge of the feature which may represent tumble.
