<p>This feature is S. Hesson's cut. it appears to be <del>the</del> earlier than pit [29867] which is <del>cutting</del> it at it's SW side.</p> <p>It seems that it was dug in order to uncover the original wall tumble <del>which rests about 2m</del> <del>cut in the bedrock on the N → S alignment.</del></p> <p>it doesn't reach the bottom of the wall tumble <del>28998</del>, which appears to be still going down.</p>
