Your interpretation:	Internal	<u>External</u>	Structural	Other (specify)
Your discussion:				
Our cut down into sand, removing sand with mud spots, approximate to boundaries of earlier (S. Hassen probably) cut. We tried to follow sand with mud spots as distinct from clean sand. We found corroded iron frags. All taken out ^{fill} as (29,857)				
				Placement in square 201.E35
