Your interpretation:		<input type="checkbox"/> Internal <input type="checkbox"/> External <input checked="" type="checkbox"/> Structural <input type="checkbox"/> Other (specify)		
Your discussion:				
Very small but possible hearth. It is ash & ceramic rich in fill and is located near a large rectangular feature which is also rich in ash. The large rectangular features appear throughout the site and appear to be associated with cook activity. Cut 29977 may also just be the remnants of an in situ ceramic pot.				Placement in square
