<p>Your interpretation: Internal External Structural Other (specify)</p>																																					
<p>Your discussion:</p> <p>Fill of cut 29996 which has a lot of dark ash silt and pottery sherds. Additionally, a circular structure to the west may be a potential hearth that would have been incorporated in potential burning/cooking activity that may account for ash & pottery. Also could simply be the fill of a room but I do not believe the cut goes that deep.</p> <div style="text-align: right;"> <p>Placement in square</p>  </div>
