<b>Your interpretation:</b>	Internal	External	Structural	Other (specify)
<b>LS crush underlying 29992</b>				
<b>Your discussion:</b>				
<p>Limestone crush which forms the base for construction of wall 29992. Erosional features have cut the eastern end of this <del>29992</del> deposit, along w/ the overlying wall, though wall 29999 is in line w/ wall 29992, and may have once been the same wall, thus Yellow limestone crush base material 30004 is likely the same context deposit.</p>
