**Type of feature:**

**Stratigraphic Matrix**

This context is

30029

same as 29638

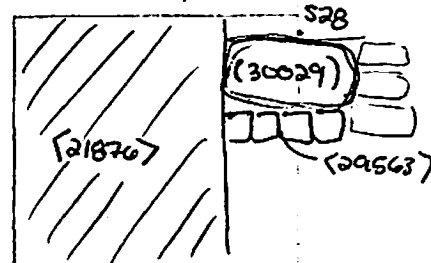

**Your interpretation:**

Internal      External      Structural      Other (specify) robbed out

**Your discussion:**

The deposit is a minimal remainder of degraded limestone and silt from an area bordered in by stubs of mudbrick walls. It appears to have been robbed out perhaps associated with the cutting of bricks forming way 29563. Access way into the space is unclear.

**Placement in square**
