Your interpretation:		12. Other comments Draw profile overleaf																																	
		<input type="checkbox"/> Internal <input type="checkbox"/> External <input type="checkbox"/> Structural <input type="checkbox"/> Other (specify)																																	
Your discussion:																																			
This deposit is lining the cut (30804). Before excavating it appeared to be a pit with burnt contents (fill: 30802); at a closer look, however, it is just a very thin layer of burnt material orange brown in colour.																																			
Placement in square
