<p>This context is a cut of a feature (purpose not clear) it was filled with 4 different fills and plastered with gypsum (30863); runs into our N. L. O. E.</p> <p>Seemed to be a burial at the beginning perhaps a drain -> but then it shouldn't be lined with gypsum which is <u>not</u> a waterproof material.</p> <p>To high to be a coffin -> that's what osteologists decided.</p> <p>It's location in the entrance in 29068 - is also puzzling.</p>
