Your interpretation:

	Internal	External	<u>Structural</u>	Other (specify)
--	----------	----------	-------------------	-----------------

Your discussion:

*rubble battered bank up to the second terrace of the basin  
 NW corner suffered from erosion truncation, small stones washed  
 away, ~~and~~ leaving a triangular heap of large stones  
 This is likely the same as 30969, and the small mud brick walls  
 were built on them. Thin mortar layer can be seen over  
 parts*

Placement in square
