|  |       |  |                | Draw profile overleaf    |

Your interpretation: Internal      External      Structural      Other (specify)

Your discussion:

mudbrick / mtk silt seal above drain spout < 30963 >. This is built directly above the lid for the drain, possibly to seal water in. This type of mud render is also seen above the lid of the drain in 101P22, maybe the same as 32379, but not certain.

Placement in square
