Your interpretation:	Internal	External	Structural	Other (specify)											
Your discussion:															
<p><i>limestone crush bank for wall <30972>, upper terrace of basin, this may be the internal makeup of the stone wall <30972>, also seen through [30028], see 2009-80. Also the same as material 30964/30969. (see discussion for 30972) - visible mainly in [30028] section, and behind 30972 on the south side where stones have been removed. Possibly the same material as behind 30972 also → <u>29813</u></i></p>				<p>Placement in square</p> <div style="border: 1px solid black; width: 100%; height: 100%;"></div>
