

Feature	Type	Description	Dimensions	Height	DRW No.
32455	deposit	White lime stone shipp's with patches of mud, Compact to mod 101R30	2.26 m L by 1.03 m W		2009- 69
32456	⚡	Compact, sandy silt surface! Mod. grey. 101R29	0.70 m L by 0.44 m W		,
32457	⚡	Mod to loose, silt mixed with mud, dark grey, with culture materials (small shreds of Pottery Frag., Lime stone Frag., 101R29	0.56 m L by 0.32 m W		,
32463 <del>32463</del>	deposit	silt 70%, sand 20%, coarse dump 10% mid greyish brown, loose compaction 101R25/Q25/Q26	120 m Long by 1.20 m w		2009- 74
32464	deposit - floor	floor surface <del>of</del> of crushed compacted limestone under <del>floor</del> mud brick (29989) surface of Menkaure ramp/road. light whitish brown. w/ little to no inclusions 101 Q24/P24/Q23/P23	≈ 9.50 m x ≈ 3 m		2009- 74, 2009- 67
32465	deposit	sloping limestone channel through limestone floor (32464) in Menkaure ramp/road. Compact. light whitish brown w/ little to no inclusions 101R24/Q24	4.80 m long x 1.73 m wide		2009- 74
32466	deposit	gray sands, loose over limestone channel (32465) in Menkaure ramp/road - removed over the season when workers were cleaning. 101P24/Q24	3.36 m long x 2.10 wide		2009- 67
32467	architecture	possible limestone wall visible through limestone road surface (32464) in M. ramp/road. light yellowish white. compact. roughly hewn, stones ≈ 25 x 20 each. Orientation NE to SW. linear, but irregular. possible mud brick sides associated with it 101P23/P24	1.50 long x ≈ 40 wide		2009- 74
32468	deposit	marl floor surface on mud brick ramp/road (29989), mid yellowish brown. loose. marl, no inclusions 101Q24	≈ 1 m long x 1.50 wide		2009- 67, 2009- 74

TYPE = Layer, Pit Cut, Pit Fill, Wall, Masonry, etc. Description of Fills/Layers to include, Hue and colour, compactness, composition and inclusions.

Description of Cuts to include: Shape in plan, description of sides, base and profile and orientation.
