Type of feature: **Modern silty sand**

Stratigraphic Matrix

			32761								
This context is			32774								
			(32766)								

Your interpretation: Internal External Structural Other (specify)

Your discussion:

Modern silty sand post date previous excavation by Reimer and Hassan - S. Fill of Pit-cut [32766] Trench "G" possibly this fill slumped from the overlaid feature.

The fill was not filled The dimension of cut, it only concentrated on the western side of the cut. The cut itself become very wide at its bottom
