Discussion and interpretation:				
<p><i>massive mud brick wall, it located at the southern end of the excavation area 'MVT-E'. it appeared to be a massive door jamb of the vestruiken tranche before the blocked wall which happened in later time</i></p> <p><i>COUNTERPART TO (32863) - ROSS ABUTTED BY (33136) BUT HEAVILY TRUNCATED.</i></p> <p><i>ROSS DEGRADED REMAINS OF BUTTBESS TO W. (NOT QUON SOP-REARLS #)</i></p>				

Remember: do not just draw the architectural feature in isolation. Show how it relates to surrounding features and include details of surface treatments, repairs/modifications/damage, bonding material(s), and associated cuts. Annotate all aspects of the feature or use a Drawing Key. Measurements must be included for all aspects of the feature and surrounding features.

**Profile Sketch - State direction the elevation of the feature being drawn is facing e.g. 'West Facing Elevation of Feature .... If feature was drawn in section then include the grid co-ordinates and elevations.**
