| Your discussion:   | <p>This deposit is a stone-rich dump layer built up over time against N. elevations of 29068, 29062 and 32966. Appears similar to deposit filling the erosion channel 30826.</p> <p>Unlike (32911)(32912) and (32914), it should be associated with the human activity in the area rather than natural processes.</p> <p>Similar to 32921 (below it)</p> |   |                |   |  |  |  |  |  |  |                 |  |  |  |
