Your interpretation: Internal External Structural Other (specify)

Your discussion: **possible grinding Granit Stone, we found it in space (11231), exactly between wall 33411 and small bin, despite the stone is not in it's place but it founded on the floor. The stone laid on the southern west of the small bin, surrounding by a layer of Ash and behind it layer of pottery. we sure a relationship between this stone and Grind the beads.**
