Discussion and interpretation:																
<p>it is a wall of mudbrick, its dimensions 1.70 m X 0.60 m. It seems to be eroded in its southern face. It consists of two courses, the northern face is headers and the southern one is stretchers. It abuts the wall <b>&lt;33317&gt;</b>.</p> <p>We notice that this wall <sup>was</sup> as a modified event between the two rooms <b>11295, 11297</b></p>																

Remember: do not just draw the architectural feature in isolation. Show how it relates to surrounding features and include details of surface treatments, repairs/modifications/damage, bonding material(s), and associated cuts. Annotate all aspects of the feature or use a Drawing Key. Measurements must be included for all aspects of the feature and surrounding features.

Sketch Plan - Include grid co-ordinates, North arrow, and elevations.

Profile Sketch - State direction the elevation of the feature being drawn is facing e.g. 'West Facing Elevation of Feature .... If feature was drawn in section then include the grid co-ordinates and elevations.
