Discussion and interpretation:
 It is a mudbrick wall (E-W), it consists of two courses, the southern one is headers, and the northern one is stretchers; it measures 2.00 m by 0.65 m. It is abutted by the wall <33475> and abuts the wall <33473>, it is coated by a plaster layer (33484), and located between the spaces (11303, 11304, 11305).
 It might be abutted ends in its eastern face with the entrance (according to Selim Hassen plan).

Remember: do not just draw the architectural feature in isolation. Show how it relates to surrounding features and include details of surface treatments, repairs/modifications/damage, bonding material(s), and associated cuts. Annotate all aspects of the feature or use a Drawing Key. Measurements must be included for all aspects of the feature and surrounding features.

Sketch Plan - Include grid co-ordinates, North arrow, and elevations.

Profile Sketch - State direction the elevation of the feature being drawn is facing e.g. 'West Facing Elevation of Feature If feature was drawn in section then include the grid co-ordinates and elevations.
