Discussion and interpretation:

It is a wall of mudbrick (w-E), it measures 1.65 m length by 0.40 m width, consists of one stretcher course; it abuts the wall <33493>. it forms the southern wall of the space (11310) and the northern wall of the space (11308).

It is clearly, that, it is a part of ~~was~~ a modification even in those spaces.

Remember: do not just draw the architectural feature in isolation. Show how it relates to surrounding features and include details of surface treatments, repairs/modifications/damage, bonding material(s), and associated cuts. Annotate all aspects of the feature or use a Drawing Key. Measurements must be included for all aspects of the feature and surrounding features.

Sketch Plan - Include grid co-ordinates, North arrow, and elevations.
