Your interpretation:																																					
	Internal	External	Structural	Other (specify)																																	
Your discussion:																																					
<p>it is circular cut, it has rounded corners, its dimension (diameter) 0.18M depth. the break of slope top is vertical sharp base and tapered for bulding. it was cut in crushed lime stone layer (33509)</p>																																					
				Placement in square <div style="border: 1px solid black; width: 100%; height: 100%;"></div>
