Date (dd/mm/yy): 7/6/08 EU: 2 SU: S212

Description: Removing stones and rocks  
to clear out area SE in new  
area of trench. Removed piece  
of gypsum 

Found & worked stone - pestle  
or possibly foundation for post?  
Removed slab-like stone 34x23 cm.

white metal (lead?) clip object  
found. Greenish-organic material

in dirt in NW corner of SU.

Soil here slightly more compact.

Elsewhere, soil continues to be  
soft. Rocks in SE of trench

too deep to remove with this  
SU.

Reached very compact soil w/ green  
inclusions in W  $\frac{2}{3}$  of SU.

Much ~~more compact~~ looser soil  
in E  $\frac{1}{3}$  of SU - decided to  
make this a new SU.

compact soil almost seems  
compact enough to be floor, but  
not sure.

Removed rock 10x18 cm, irregular  
shape, flat on top and bottom with  
chisel-like markings on face.
