Description: Remaining extremely compacted soil with greenish inclusions. Perhaps floor, but doubtful. Very strange soil - when scraped with trowel, shows greenish, reddish, and white claylike areas of soil. Some small broken kitchenware.

Began to come down on more homogenous reddish brown soil, with some burnt-ashy looking spots. Small pieces of charcoal, broken pottery, and saw burnt seed. Perhaps coming down on a trash pit, in the corner where two large stone slabs form wall. Ended SU here, will begin new SU with suspected trash pit.

~~Remains extremely compacted soil with greenish inclusions. Perhaps floor, but doubtful. Very strange soil - when scraped with trowel, shows greenish, reddish, and white claylike areas of soil. Some small broken kitchenware.~~
