Procedure

Dry sieve Water sieve _____ If water sieve, # of bags: _____

Finds (# of bags)

Ceramic 1 Stone _____ Bone 1 Metal _____ Organic 1 Plaster _____ Other 2 shell / 11 unidentified object

Date (dd/mm/yy): 11/6/08 EU: 2 SU: 5226

Description: Excavating area around the suspected pit area. Soil was rather different from pit, but content of pottery (some burnt), shell, bone & was very similar to that within the pit. I suspect that the large rocks in this SU have made the soil ~~change~~ different. We have bedrock higher up in this SU than in the pit it surrounds. Found very burnt handle in this SU. Also an unidentifiable small disc object. Ended SU when I hit much darker soil. I expect to hit bedrock shortly into the next SU.

End elev: top of bedrock in SW corner 55.28, center 55.14
