Description:

Very dark grey ash (w/ some red) soil
 over bedrock floor in center of EU.
 Lower SU 5235. This lies below the flooring,
 but its color & texture ~~over~~ are different
 than SU 5235 & suggest burning. The
~~number~~ several pieces of ash bone in
 this layer suggest so much.

The reddish soil immediately to the
 north appears to be mudbrick or at
 least some of it does. We will excavate
 the red soil as SU 5240.
