p1-3

Date (dd/mm/yy): 04/06/12

EU: 15

SU: 5313

Description:

Sandy clay soils pulled from canal trench on western elevation of emerging fortification wall. Anticipated pulling datable material from this trench also while following the fortification ditch. Bedrock at some point? Increasingly difficult to maneuver in western SU because of wall heightening as we get lower.

Bottom elevations

$$N = 54.27$$

$$C = 54.19$$

$$S = 54.13$$
