Date (dd/mm/yy): 11 / 06 / 08 EU: 5 SU: 5407

Description: Removing more soil north of wall
5402-f1. We are not finding much
pottery, although what we do find ~~is~~ has
very sharp edges.

I don't see any change in the texture
of the soil, and the soil ~~test~~ test
resulted in the same sandy soil as the
level above (5403), however the ^(SU) unisel
test ~~identified~~ identified a darker colour;
dark yellowish brown. In all other
respects, including stoniness I don't see
much difference.
