Description: ~~✱~~ We have decided to remove the patch of floor that we uncovered next to feature 5402-f2, since its relationship to both the wall <sup>(5402-f1)</sup> and the feature has become clear. It appears that it is contemporary with feature 5402-f2 and that the wall 5402-f1 is later, since it ~~probably~~ looks like the floor was cut into for the wall to be put in. Since the soil between the flooring and our current elevation in the area is several separate SU's we did not do soil tests or colour description.
