Finds (# of bags)

Ceramic 2 Stone _____ Bone _____ Metal _____ Organic _____ Plaster _____ Other _____

Date (dd/mm/yy): 29/5/12

EU: 16

SU: 5504

Description:

After finding the south face of the wall, we divide the trench in 2. 5504 has the goal of finding the north face which is very much a continuation of SU 5503 - same soil & context (tumble), to the north.

We close this SU once it seems we need a north extension to fully articulate north face of the wall, which seemed to ~~run~~ run into NE scarp.

→ It was mainly the core of the wall, not tumble, that we excavated, since the face proved to be so far north.
