Date (dd/mm/yy): 2 / 6 / 12 EU: 16 SU: 5513

Description:

SU 5513 sits under 5512 & continues the step.

Unfortunately the 5m water step ~~was~~ was too little. This area collapsed too, forcing us to extend further (5515) & abandon this SU after limited work. It was clearly the tumble layer though

No bottom ELS taken as a result.
