Date (dd/mm/yy): 27/5/10

EU: 12

SU: 7005

excavated with small pick and shovel, 10876 sized

Description: SU 7005 is a debris context that

is the same as SU 7003 from 20 cm area

directly north. It extends around ^{the} large

stone (masonry) in the northeast corner of ^{the} excavated

western area of EU 12 (present also in SU 7001-7004)

The stone has been drawn and scanned (SU 2005

plan ~~2004~~) and is now floating along with large

rectangular masonry that extends to ^{the} south-east.

These stones appear to be out of place, as though

abandoned during robbing operation or dislodged

from secondary wall(?) position by plow. The large

rectangular stone has a semi-circular divet

in ^{its} NW corner. Perhaps for a ~~wood~~ pivot ^{ring} door sock?

(see pictures ²⁰⁰⁵ P I-4) and plan 2004-d1.
