Opened: Matrix below the shell-bedding L18478
Limits (N) W18463
(S) L18475 and E-W stone line
(E) W18471 and robber trench L18505
(W) baulk under W9065

Closed: New locus opened in continuing matrix below due to increased extent (below W18471 and include RT L18505).
Matrix: Layers and lenses of brown dirt and sand, a thick ashy matrix with charcoal flecks ( $5-8 \mathrm{~cm}$ deep), and ephemeral plaster/ash lenses.
Relations: L18488 is the multiple surface accumulation W of wall W18471 and robber trench L18505. It slopes down dramatically to the west.
Importance: Medium value - limited extent but transitional LB/IA pottery.
