written by R. Palmer checked by J. Zorn

Relations: [L9375] reaches [L9369], and was probably built as surface upon which to lay drain [L9109]. Drain [L9109] built partly on top of [L9375]. [L9375] abuts floor makeup ([L9419]) of drain [L9025]. Fill [L9099] may be cut by [L9375]. The relationship between [L9375] and the material below [L9109] in Sq. A133 is unclear.
