Burned Rubble) Reaches [W9412]. South Face of wall appears Burned. The sloping Floors and Walls 9412 and 9413 are contemporary and probably predates the mud brick walls (W9420, W9262, W9295) which in turn predates W9065 and W9066. These walls also appear earlier than [W9140].

Summary

Opened: see 1989 card.

Limits (N) see 1989 card.

(S)

(E)

(W)

Closed: Removed wall.

Matrix: 2-3 courses high; rough, oblong field stones, 20-30 cm long.

Relations: for all previous relatives, see card for 1919.

Covers and seals L9920. In fact covers should be L9920.

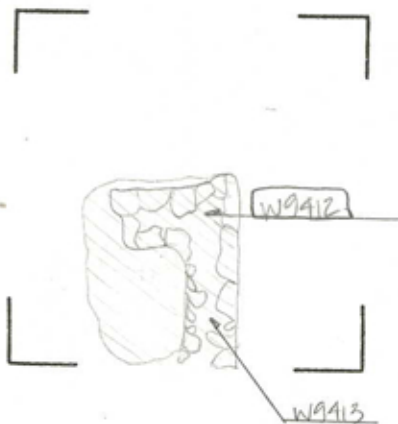

8/02 EB-5 based on the photos, looks like 9412 abuts W9413.

100756-763

Additional Photos: 101758-100763, 101188-101191

Additional Observations/Value: W9412 sealed L9920, which gives it stratigraphic value. Pot sherds are from the Iron I period in W9412.
