final STRATUM

Summary:

Description: opened 7: When Pit [9378] came down on wall [9413]

DEF/LIM: North Abuts [W9412], East BY [L9411] and [L9434]  
South By BAULK, West By [L9414] and [L9474].

MATRIX: Rough Fist sized + larger Field stones.

closed 7: end of season, Not closed

Relations 7: Abuts [W9412]. Reached By [L9434]. Reached By Pit [L9414] and Rubble/Ash [L9474]. West face of wall appears to be Burned. Because surface of [L9502] reaches [W9412], which is abutted by [W9413], this wall is probably related to these sloping surfaces. [L9378] may have robbed upper course(s)

of [W9413]. Pit [L9185] Robs part of the corner formed by [W9412] and [W9413].

8/02 EB-S based on photos on W9412 card, looks like 9412 abuts 9413. Persian pit L9460 came down over southern extent of wall + perhaps removed stones.

Summary

Opened: see 1989 card.

Limits (N) see 1989 card.

(S)

(E)

(W)

Closed: Removed wall.

Matrix: 2-3 courses high; rough, oblong field stones, 20-30 cm long.

Relations: for all previous relations, see card for 1989.

Covers and seals L9920. In this case, covers and seals are from the same locus.

Additional Photos: 100756-100763, 101188-101191

Additional Observations/Value: W9413 sealed L9920 which gives it stratigraphic value. Pot sherds are from the Iron I period in W9412.
