Summary

Opened: L9723 came down on W9729. L9716 and L9726 were leveled with this and collapsed and divided into L9731 and L9732.

Limits (N) L9694

(S) W9729

(E) W9694

(W) L9694

Closed: Brought level with base of L9694. End of season.

Matrix: Hard, dark brown compact mud-brick. Similar to L9694 to N and E, although darker brown than L9732 S. of W9729, and not similar to the yellow grey soil above in L9716 and L9723.

Relations: L9726 covers N. half of L9731. L9716 and L9723 cover S. half of L9731. L9731 and L9723 probably cut L9731. L9716 is an FT for W9051, and L9723 appears to be an extension of it. L9731 reaches W9684 to the E, and W9729 to the S. It is a continuation below L9726 and to the S. and E. of L9694.

Additional Observations/Value: Mud brick lower reaching W9684 and W9729.
