Summary

Opened: Under fragmentary floor [ 9924 ]

Limits (N) [ 9925 ]

(S) [ 9970 ] and [ W 9993 ]

(E) [ 9958 ]

(W) Excavated material under [ W 9147 ]

Closed: End of the season - Not closed

Matrix: Red-brown material with some pottery, bone and mudbrick fragments, more or less same material as [ 9924 ] above. [ 9925 ] more greenish material and looser. [ 9970 ] thick mudbrick material with plaster, no pottery. [ 9958 ] brown sandy material with small stones and more down, thick ash layer.

Relations: [ 9935 ] is covered but not sealed by [ 9924 ]

To the W [ 9935 ] appears to continue into the bank below W9147

To the E [ 9935 ] might reach the ash layer of [ 9958 ]

To the S [ 9935 ] reaches the mudbrick pedestal [ 9970 ] and [ W 9993 ]

To the N [ 9935 ] might be reached by [ 9925 ]. White digging down the grey material of [ 9925 ] spread more to the south which might be an indication for the fact that [ 9935 ] slides under [ 9925 ]. But this relation is uncertain.

\* F9924 was a thin ash/turkey material found only along the pedestal below W9147

Additional Observations/Value: Medium value, unsealed fill material
